PROJECTS

Content Aggregator Platform Full Stack

[code](#)

Tools: React, Tailwind CSS, Django, Django REST framework, API Integration

A full-featured application enabling users to register, authenticate, payment integration, download, digital rights management DRM and manage their posts seamlessly.

Responsibilities:

- Developed the front-end using React, creating a responsive and intuitive user interface.
- Implemented user authentication and authorization using Tokens, ensuring secure access to the application.
- Managed the backend entirely with Django, handling data storage, retrieval, and user management efficiently.
- Implemented advanced searching capabilities, collecting and displaying high-quality images from various sources. Enhanced search functionality increased efficiency by 40%.

Admin Dashboard

[code](#)

Tools: React, MUI, Node, Express, MongoDB, API Integration, Redux

A sleek and intuitive web application allowing users to easily provides comprehensive data visualization through various charts, graphs and tables.

Responsibilities:

- Developed the front-end using React, ensuring a responsive design that works seamlessly across desktops, tablets, and mobile devices.
- Implemented Nivo Chart to create dynamic and interactive charts and graphs, providing clear and insightful data representation.
- Sourced data from JSON files, ensuring the application is populated with relevant and structured information.
- Utilized Redux for efficient and predictable state management, allowing for smooth data flow and updates across the application.
- Successfully deployed the application on Render, ensuring high availability and performance.

Short URL

[code](#)

Tools: React, Chakra UI, Node, Express, MongoDB

Developed a short URL application that allows to shorten a URL.

Responsibilities:

- Implemented a responsive and intuitive user interface using Chakra UI.
- It allows users to create shorter, more manageable URLs that redirect to the original, longer URLs.

ACADEMIC ACHEIVEMENTS

- **Tech Games and Event Management:** Actively participated in college tech games and managed various events, enhancing organizational and teamwork skills.

SKILLS

Technical Skills: HTML/CSS, JavaScript, Bootstrap, React.js, Responsive Web Design, MUI, Chakra UI, Tailwind CSS

Tools and Technologies: Git/GitHub, Performance Optimization, VS Code, Git/GitHub

Soft Skills: Communication, Team Collaboration, Continuous Learning, Time Management
